

Interconnecting Gym Mats

Premium commercial grade gym mats for a plethora of uses.

Description

At Mat World, our commercial grade Gym Mats are created using high density, high impact and tightly bonded commercial grade natural rubber. This ensures that they can sufficiently absorb the forces exerted upon them during a workout, while safely cushioning against the firm ground underneath.

Aimed at commercial gym operators, our premium gym mats are perfect for reducing noise and vibration while offering superior fall protection and absorption. Our Professional Interlocking Gym Mats are available in 500mm squares with a thickness of 10mm.

KEY FEATURES

- Has sound deadening acoustic properties
- Reduces vibrations - perfect for areas that require a high impact flooring solution - e.g. areas where weights are used
- Especially suited for areas used for floor work routines
- 500mm square tiles are easy to carry between areas of use
- Can be driven on without ruining the mat
- Easy to install with interconnecting sides to help the pieces slot into place

Perfect for:

Commercial Gyms, Leisure Centres, Home gym use, Home garage use
