

Abrasive Insert Stair Nosing

Description

These quality aluminium stair nosings with abrasive inserts are ideal for use on exposed stair ways and high traffic areas.

All nosings have been tested to conform to current Australian Standards AS NZS 1428.4.1 and come with accredited certification.

The abrasive inserts are designed specifically for areas where superior non-slip grip is required. This Stair Nosing has a fantastic P4 anti-slip rating.

The range of abrasive insert stair nosings include:

- 1CT10 - with a 10mm nose - available in aluminium or black
- 1CT35 - with a 35mm nose - available in aluminium or black
- 1CT10Flush - a 10mm nose that sits flush against a timber substrate

Benefits

Slip Resistance, Hi Traffic
