Gym Mats - Commercially Certified Gym Flooring

Description

Thesehigh-quality, Australian made,Commercially Certified GymFlooring Matscome in a 1m x 1m size, boasting a thickness of 15mm and featuring bevelled edges along the perimeter.
The substantial weight of these tiles makes them ideal for easy loose-laid installations. This practical approach is especially beneficial for fitness center owners, allowing them to view the floor as a removable asset in case of relocation.
