

Hydrasorb Mat

The most heavy duty and absorbent mat on the market.

Description

Hydrasorb entrance matting is used in shopping centres and commercial buildings throughout Australia. It is constructed from heavy duty carpet fibre that is up to three times the weight of similar mats, enabling it to handle heavy foot traffic over a period of years.

Designed for extremely high traffic areas, Hydrasorb is the best choice when you need a mat that can take a real beating and remain looking good.

Key Features and Benefits:

- The perfect solution for recessed mats
- Absorbs and holds substantial amounts of water on wet days, yet dries quickly
- Available with heavy duty edging, so trolleys can ride up with ease, and edge cracking and splitting is minimised
- Available in a 4m wide roll that ideal for large recess areas to minimise joins

Speak to our matting experts today to see if Hydrasorb is right for your building or facility.
