

Gym Mats - Domestic and Light Commercial Gym Flooring

Premium commercial grade gym mats for premium commercial gym operators.

Description

Our domestic and light commercial rubber Gym Mats (or Gym Tiles) are a great quality, affordable flooring option for home gyms, refits and lighter commercial applications.

Created using high density, high impact and tightly bonded commercial grade rubber, these gym mats ensure they can sufficiently absorb the forces exerted upon them during a workout, while safely cushioning against the firm ground underneath.

Key Features

- Available in 1m x 1m squares
- Reduces noise and vibration
- Superior fall protection and absorption
- Odourless rubber
- Easy to install
- Made in Australia
- Commercially Certified Gym Mats also available

Suitable for:

- Home and light commercial gyms
- Undercover Terrace Flooring
- Undercover Balcony Flooring
- Break out areas
- Most internal flooring applications for exercising
