

Soft Foot

So comfortable underfoot that you'll feel like you're stepping on a cloud.

Description

With greater resilience and dramatically enhanced wear resistance, the Mat World Soft Foot is an amazing, effective anti-fatigue mat. This is a premium, versatile flooring solution that has applications for both office and industrial settings where other foam vinyl products would quickly break down under use.

The structure of the foam gives our Soft Foot mat superior non-slip characteristics in dry environments. This helps to control possible mat movement during use. Soft Foot also actively insulates by preventing cold from hard floors seeping upwards into the feet of users.

KEY FEATURES

- Fused on top surface to insulate from cold floors
- Lightweight
- Great traction rate

Perfect for:

Dry areas, single work stations, service desks

Benefits

Slip Resistance, Anti Fatigue, Custom
