

Wet Star

Star by name, star by nature - a raised matting runner for a range of applications.

Description

The Mat World Wet Star is a raised matting runner suitable for a wide range of applications - from industrial settings to public and commercial wet areas such as pools and showers, as well as locker rooms and large bath areas.

This premium flooring solution, moulded from PVC, has large open spaces for excellent drainage. The Wet Star's superior drainage is aided by 3mm lugs underneath to keep the underside of the matting clear of any floor surface.
